

MVIS Global Video Gaming & eSports Index

The MVIS Global Video Gaming & eSports Index is a global index that tracks the performance of the global video gaming and eSports segment. The index includes companies with at least 50% (25% for current components) of their revenues from video gaming and/or eSports. These companies may include those that develop video games and related software/hardware, streaming services and are involved in eSports events. The MVIS Global Video Gaming & eSports Index (MVESPO) covers at least 90% of the investable universe. Most demanding size and liquidity screenings are applied to potential index components to ensure investability. It has been licensed to underlie financial products with currently USD 1312.37 million in assets under management.
