

MVIS and Wavebridge Launch the MVIS-Wavebridge Bitcoin Plus Altcoins Momentum Index

Designed to provide exposure and risk management within a crypto asset class

Frankfurt (26 August 2021) – [MV Index Solutions GmbH \(MVIS[®]\)](#) and Wavebridge today announced the launch of the [MVIS-Wavebridge Bitcoin Plus Altcoins Momentum Index \(ticker: MWBPM\)](#).

The [MVIS-Wavebridge Bitcoin Plus Altcoins Momentum Index \(ticker: MWBPM\)](#) tracks the financial performance of an index composed of Bitcoin and other altcoins weighted by momentum factor. The index is constructed as a convex combination based on past performances of two main components: Bitcoin and a basket of non-Bitcoin crypto assets ("Altcoins"). The objective of the index is to provide exposure to both Bitcoin and selective altcoins using Wavebridge's proprietary quant model in an attempt to provide superior returns through optimal allocations. This model also provides index-based access to factors that historically have driven a significant part of digital asset risk and return.

"The launch of this new index is a reaction to increased demand for more complex approaches in the crypto space. MVIS is happy to help Wavebridge offer a momentum-based approach to the market," said Thomas Kettner, COO of MV Index Solutions.

"Wavebridge is committed to bridging the digital assets and traditional assets by providing our expertise on cryptos. We will continue to develop our global capabilities for this mission," said Jongwook Oh, CEO of Wavebridge.

"As digital assets move mainstream, the need for smart investment strategies will grow. This index partnership with MVIS showcases the crypto and quant capabilities of Wavebridge," said Taeyong Lee, Chief Global Strategy Officer at Wavebridge.

The [MVIS-Wavebridge Bitcoin Plus Altcoins Momentum Index \(ticker: MWBPM\)](#) is a rules-based index that covers the broadest CCCAGG pricing provided by CryptoCompare, calculated in USD as price return indices. Capping factors are applied to avoid overweighting of single index companies. The

index is reviewed on a monthly basis. Detailed information about each index is available on [MV Index Solutions website](#).

Key Index Features

[MVIS-Wavebridge Bitcoin Plus Altcoins Momentum Index \(ticker: MWBPM\)](#)

Number of Components: 8

Base Date: 31 December 2017

Base Value: 100
